Covid – 19 Outbreak

Thankfully, we seem to be over the worse of our Covid-19 outbreak within the home with no further staff or residents showing symptoms. Obviously, we will be continuing to have all our infection control measures in place and with this in mind, we have to inform you that, unfortunately, we need to continue with not letting visitors into the building.

Aneesh remains our Covid-19 lead, so if you have any queries or concerns regarding your loved one in relation to Covid-19, then please feel free to call.

Contact

We are pleased that a lot of you are maintaining contact with your loved ones through face time, Skype etc. If anyone else would like to try this excellent method of keeping in touch, then please let us know.

Photo

We hope you like the attached photo and personal message from your loved one.

You are welcome to have a document sent to you of this special picture by e-mail by contacting us at info@heathersnursinghome.co.uk and we will gladly send it to you.

Staff

We would like to finish by giving a special thanks to our hard-working exceptional staff, who continue to turn up to work to support the residents with the same dedication.

Celebration

Next Thursday night 8 pm we will be celebrating their hard work by having our own “clap for carers” within the home. Prior to this, at 7 pm, we will be holding a small event for the residents where we will be having some musical entertainment set up on the patio.

That’s it for now, please take care of yourselves

Ian/Julie
