NURSING HOME NEWSLETTER

Hello November! Welcome to your monthly newsletter. This newsletter is for us all to recap on the previous month, look forward to future plans together and be updated on any new information. We hope you enjoy it.

# NEWS ON VACCINATION

New government legislations are coming in to effect from November the 11th , those who are not fully vaccinated are not allowed to work in care homes unless exempted. This means, those who come inside the home to do any arranged work, interview, etc... need to show us proof of vaccination if not exempted. This will not apply to family's visiting.

# VISITING ARRANGEMENTS

Visits are conducted based on appointment basis . This is to take into account the number of visits per day and the infection prevention and control measures. Please ring the home to book your appointments and discuss about different options of visiting.

We have a new designated area for the visitors which is the shed at the back entrance, where all the PPE and visitors forms are kept. Before entering the home wash your hands enter the pod check your temperature, fill the form and put PPE (apron,mask and gloves)on and ring the door bell. One of our staff will then come and check your negative LFD test before letting you inside. As the infection rate is increasing in the community we need to approach visiting with caution. We are now limiting the visits to 30 mins and 3 visits per day. We are only accepting the LFT results if you show us a confirmation email or text message which you will get after registering your test, you must register online or ring 119 and ask them to register it for you .

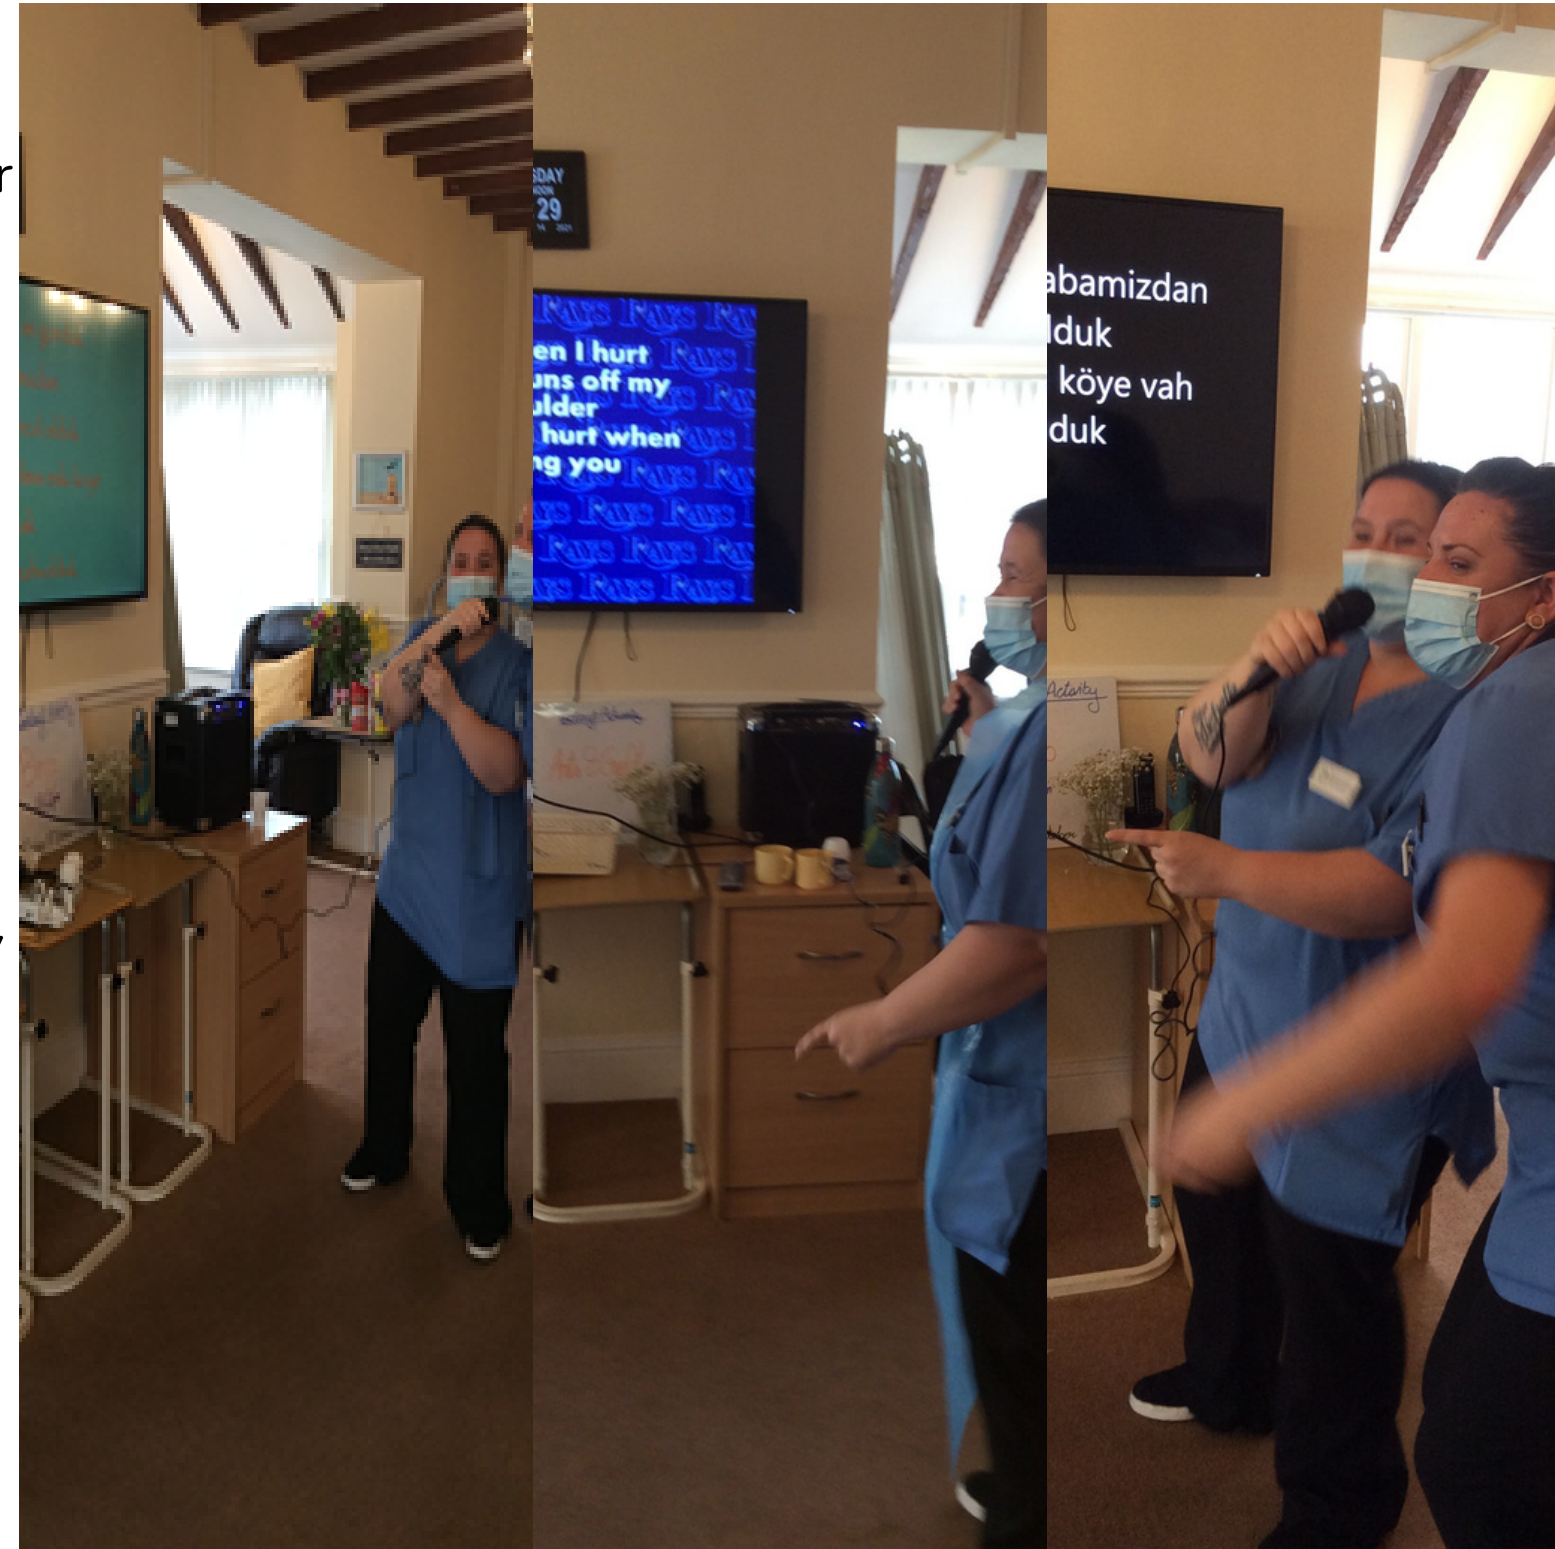

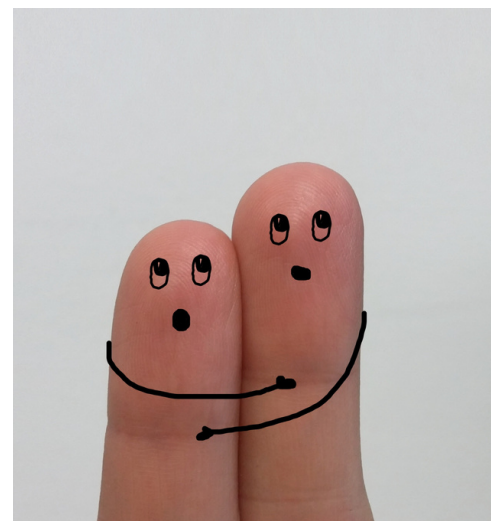

# WHAT'S BEEN HAPPENING?

We have been extremely busy in October having so much fun.

- The highlight of last month was our fabulous karaoke queen Michelle. Residents liked her voice, they said voice of an angel.
- Face your fears day! We had Zoo lab come in with exotic small creatures. I was so proud of my residents as they were so brave and held all the animals. I wish I could say the same about my colleagues who ran away, when they saw the animals.
- We had a lovely afternoon tea party, with tea & coffee, cakes and chocolates.
- Spooky Day! We dressed up for our Halloween party. Residents enjoyed the party.
