Health Professionals Satisfaction Questionnaire (February 2022)

Westcroft Nursing Home carried out its annual health professional's questionnaire during January and February 2022. This was done to monitor, review and evaluate the Home's various services. It was encouraged that forms were filled in with the professionals name on it. This was asked so the Home could identify individual's issues and act accordingly, as the focus of the questionnaire is on quality improvement.

These questionnaires were given to a GP, a Chiropodist and a Care Coordinator and attached are the responses.

All feedback will be taken on board and improvements made where possible
