

HARLEY HOUSE NEWSLETTER

MARCH 2021

Welcome to Our Newsletter

Well, January and February proved to be difficult months at Harley House this was due to Covid 19 deciding to pay us an unwelcomed visit. Several staff and residents were unfortunately affected by this awful virus, but we are pleased to say that the fighting spirit of the Residents and Staff soon sent Covid 19 packing. We are happy to say all Residents and Staff are now fully recovered. We are also happy to say all our residents have received their first Covid 19 vaccine and 97 % of our staff have also received their first dose. And with the Prime Ministers recent announcement we are looking forward to welcoming our relatives back to the Home and hopefully getting back to some normality.

We managed to enjoy some activities before our residents had to isolate. As always, our residents love their dose of daily exercises.

Spending time on a one-to-one basis is always enjoyed by both residents and staff as it provides meaningful engagement .

**Our relatives definatley knew how to keep us motivated
when the Home was in isolation With some lovely
treats.**

**The snow provided some much-needed down time for the
staff and we were very proud of our snowman.**

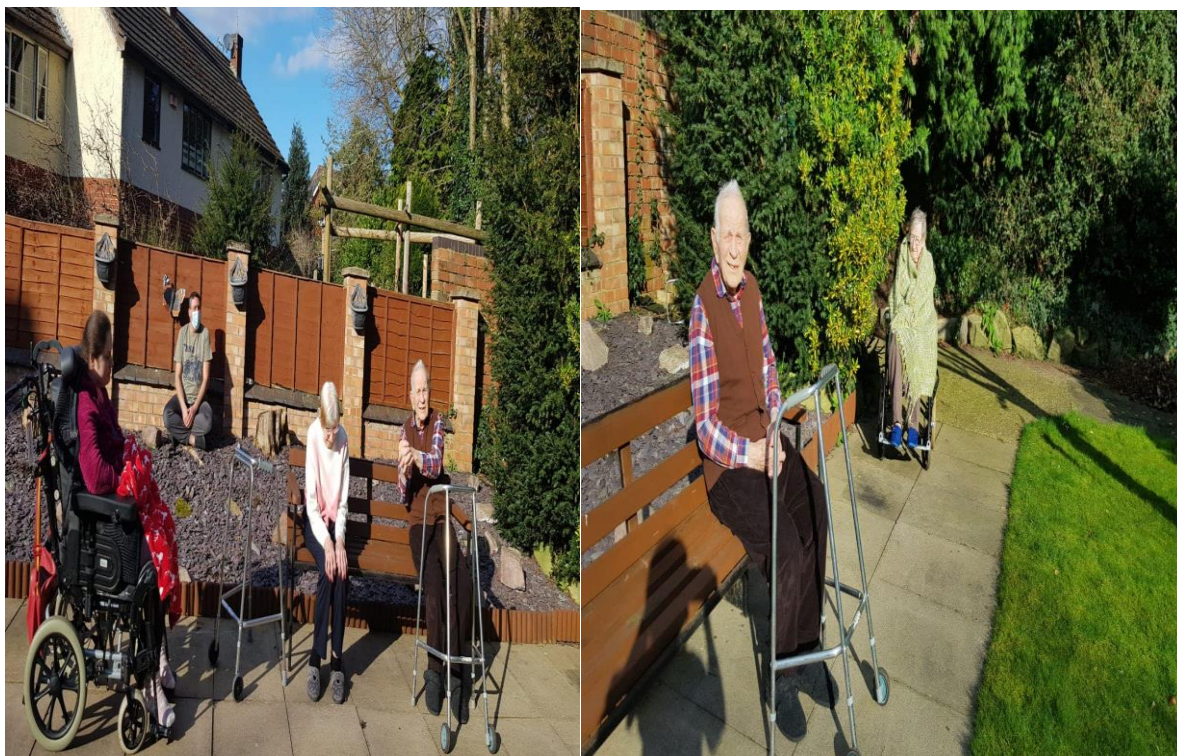

Post isolation our Residents went back to enjoying their exercises and a game or 2 of Indoor Skittles.

The staff and residents felt it was important to show their respect for Sir Captain Tom Moore.

The mild weather provided some much relief and meant we were able to enjoy going out in the garden.

Finally, we are looking forward to welcoming our relatives back to Harley House. We are continuing to provide Window Visits and visits in our Covid Secure Pod. As per the latest government guidance we will also be providing face to face visits, we will be ensuring that the visits are carried out in a Covid Secure Manner.
