

The Willows Whisper

Blooming marvelous!

It may seem apparent, but looking at this stunning colorful flower bed and pots can make one very happy. Our garden has been transformed by Malvin, who took a great deal of care into planting flowers for our residents to enjoy.

Some of our residents enjoy sitting outside when the weather's fine, happy chatting and socialising with others. Visitors are welcomed to sit in our garden, when visiting their loved ones, and together enjoy the conversations, or listening to birds chirping in the trees.

Many of the bedrooms at the Willows face out onto the garden. The dining rooms and patio doors give residents a great view of all that the weather and the changing seasons bring. We do all we can to encourage birds into the garden, making sure the feeders are filled with tasty treats!
