

13th September - Rosie's hair

Our Resident Rosie informed us that she used to have Pink hair when she lived at Home, and very much enjoyed going to the hairdressers. At the Willows are Fortunate to have our own Professional Hairdresser, so once we knew this information we knew exactly who to speak to about creating Rosie's favourite look.

Rosie has complex health problems. Her mobility is limited. When she first came to us, she spent most of the day in her bed due to her health impacting her mental health. However, our hairdresser, Beth, can provide her services, and work around our residents' limitations.

Once Rosie was 100% certain she wanted to have her hair dyed pink. We worked out all the logistics, and with a great deal of the assistance from our care team, Rosie had her hair dyed and styled as she wanted, and to the style that made her feel like her old self, and more importantly 'happy'

She was very pleased with the results. Rosie has received many compliments both from residents and staff members. That hair change has helped lift her mood and remind her of life prior to being poorly. She enjoys matching her outfits with her hair colour at every opportunity, when getting dressed for the day. All the pictures were taken and posted to her family.
